

FFA HOLDS DISTRICT MEETING IN ELBA

The first meeting of the Coffee County District Future Farmers of America was held at the vocational building in Elba, on Monday night, Oct. 9, with 27 members taking part. They were from Enterprise, Kinston, New Brockton and Elba.

The meeting was called to order by the president and plans were made for the initiation of members at the next meeting. These members will be the ones from the different chapters who through their work, have earned the degree of Chap-

ter Farmer. It is expected that about 40 boys will receive this degree in November. The meeting was then turned over to the Elba program committee who supervised the playing of games in which all members and the advisors took part.

At the close of the meeting refreshments were served by the local chapter. Douglas Devane, Rep.

George Lamar Collier left Monday for San Diego, California, after visiting home folks for a week. He has finished his "foot" training there and will enter Yeoman's School.

Farm For Sale

DEATH OF BABY

On Wednesday morning, Oct. 11, the death angel visited the home of Mr. and Mrs. Ben Danford and took away their little baby. It was born Oct. 7. The burial took place in Bethany cemetery with Boyd in charge. Brother Liddell conducted the funeral. He leaves to mourn his parents, one sister and one brother.

CARD OF THANKS

We wish to thank the people for their kindness and sympathy in the death of our baby, and we also thank Dr. Fussell and Dr. Bush.

The Danford Family.

COOPER-SIMONS ANNOUNCED MARRIAGE

Mr. and Mrs. Oscar E. Cooper, of Mobile, Ala., formerly of Elba, announce the marriage of their daughter, Martha Sue Cooper, to John R. Simons, son of Mrs. Bessie Simons and the late Earnest Simons, of Savannah, Ga. The marriage took place at a few close relatives and friends, with Rev. Bob Barker performing the ceremony.

Private Simons is now serving with the armed forces and is stationed at Camp Rucker with the 66th Division.

Shortly after the ceremony the young couple left for points in Alabama and Georgia. Mrs. Simons has returned home to resume her position as secretary to Mr. F. E. Baumhauer with the Alabama Shipbuilding Co.

Mr. Simons has returned to his duties at Camp Rucker.

F.O. H. B. JOHNSON WRITES ABOUT NATIVE CUSTOMS IN INDIA

Somewhere in India.

A year ago, the war was something unreal. Every day here has begun to be more realistic, until the U. S. A., the old customs, and my friends have begun to be the dream.

I have chosen this method of saying "hello" to my friends back home because my letters are very far apart. It isn't often I have a chance to write. Things move fast here and a person can never tell when his last letter is on its way.

Yes, I've seen many very interesting things and people since I've been over here. We Americans have a very high standard of living and it's very hard to believe what one sees here in India.

What one sees here in India is as common as a smile in the States. Over here a person who owns two suits of clothes is very wealthy in relation to these standards. Everywhere you go, every man is a beggar in large numbers. It is almost impossible to enjoy the oddities or scenery of the larger cities because of the horde of beggars following you. It is impossible to help all of them. They will practically mob you if you help one. I don't believe I have felt for them, or at least to help from showing my feelings, my first trip into the city.

Of course, there's quite a bit of humor in everyday life, and this is a difficult language to learn. Most of the talking is done in sign language between Americans and natives; very amusing. We hire servants to keep our quarters clean. Labor is very cheap and of course the Americans are lazy. My "bearer" (servant) has the unusual name of "Makie," a very talented person with a limited knowledge of the English language. I don't believe he has learned to say, "no." Every question I ask him is ended in, "yes, Sahib," with a shaking of his head as he says "no." The other day one of the officers asked him to bring a wooden box. He went into dilapidated description by motions with his hands as to size and depth he desired. As usual, "Makie" shook his head and replied, "Yes, Sahib." He left and returned a few minutes later with a paper bag.

So there's humor as well as sadness here. There have been numerous incidents like this, but I can't recall them at present.

I hope to see everyone soon. My love and best wishes.

ELBIAN IS MEMBER OF FIGHTER GROUP RECEIVING CITATION

15th Air Force in Italy—Pvt. James L. Butts, 23, of Elba, Ala., an engineering clerk, has been authorized to wear a gold-bordered ribbon over his right pocket, indicative of a Unit Citation awarded the P-51 Mustang Fighter Group to which he was assigned on the 6th day of June, 1944.

The group, commanded by Lt. Col. Robert Levine, of Columbus, Ohio, was cited for outstanding performance of duty on a mission escorting heavy bombers attacking vital targets at Munich, Germany, June 9th of this year, just a few weeks before completing its second year of overseas service as a unit.

The personnel of the group were credited with the success of the mission which resulted in the blasting of airplane factories and supply and communication lines vital to the enemy at a critical phase in the battle of Europe, for despite appalling plans of the enemy to intercept the fighters, the prior planning and excellent leadership of the fighter group, the P-51 Mustangs, and the success of the mission.

Conversely, 14 of the enemy interceptors were shot down in the several enemy attacks.

Beginning with fighter sweeps over Northern France in 1942, and subsequently flying all types of

fighter missions throughout the Algerian, Tunisian, Sicilian, Corsican and Italian campaigns, the group has established an outstanding record, destroying over 360 enemy aircraft and probably destroying and damaging many others. In dive-bombing attacks, 38 enemy ships were sunk or severely damaged and communications disrupted over wide areas of occupied Europe.

Shortly changing to the P-51 Mustang from the Spitfires they had been flying, the group established a theater record in shooting down over 100 enemy planes in 30 days.

WEEKLY NEWS ANALYSIS

Nazi Resistance Grows in West; Chinese War in Critical Stage; Strong Cattle Markets Forecast

Released by Western Newspaper Union

Editors Note: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily those of the newspaper.

CHINA
The Japanese occupation of China, and progress of drive along east coast to seal it off to counteract possible U. S. landings.

EUROPE
Nazi flight back. The German army in the U. S. army units brought their big guns into full play as dogged doughboys pushed their way through the Siegfried line above Aachen in the face of mounting German resistance.

Although the main fighting focused above Aachen, action remained heavy along the whole 400-mile front, with the Germans attempting to meet Allied advances with strong armored counterattacks.

With an average of 240-mm. field pieces laying a creeping barrage before advancing doughboys, and with squads of tanks rumbling over the countryside to blast enemy strong-points at short range, Lieut. Gen. Courtney Hodges' Third American army tore a big hole through the Siegfried line, finding static defenses manned by inferior German troops, with the best saved as reserves for counterattacks.

Equally bitter fighting raged on either side of the Third army sector, with the Nazis counterattacking strongly around Nimmes in Holland to blunt the British Second army and run around the Siegfried line in the north, and elite enemy troops putting up stiff resistance to doughboys pushing them out of the underground fortifications guarding Metz, key to the coal-laden Saar basin.

On the southern anchor of the western front, the enemy fought back viciously from prepared defenses in the rolling country in an effort to stop the U. S. Seventh army's thrust toward the Vosges mountains and the wide Belfort Gap leading into southern Germany.

In Italy, the U. S. Fifth army pushed closer to the great communications center of Bologna, through which the enemy has been routing reinforcements to his sagging Po Valley front.

As the Russians increased their pressure against Hungary, and their Red forces drove across Yugoslavia for a junction with U. S. and British units, the Germans were put to it to plug up the Balkan gateway to southern Germany.

Although the Nazis reportedly succeeded in withdrawing the bulk of 200,000 men from the southern Balkans before the British invasion of Greece and the Russian drive to sever communication lines along the escape route, the Reds pressed to nip of the struggling remnants.

In dividing across eastern Yugoslavia, the Russians overran rich metal deposits around Bory, which the Germans had been working extensively, and enveloped the capital of Belgrade, with Romanian troops fighting by their side, the Reds advanced to within 125 miles of Budapest, heart of Hungary.

CATTLE MARKET:

Prices Strong
Large government purchases of low-grade beef, and decreased hog shipments in the face of big demand, will tend to keep market prices at a high level this fall and winter, the department of agriculture reported.

Because of the sale of more range cattle than last year, however, and the relatively smaller marketings of finished grades, overall prices may average lower than in 1943. With a much larger prospective supply, calves are also expected to fall below last year's prices.

At selling prices throughout midsummer, hog prices are expected to remain high through the next six months, with the government in the market for the smaller pork supplies reflecting the 24 per cent reduction in the spring pig crop.

EXPORTS
Best customers for U. S. goods in 1944 were Great Britain, which took 18.9 per cent of our total exports, valued at \$1,447,000,000 including lend-lease; Canada, 19.3 per cent; Egypt, 4.9 per cent; and South Africa, 3.8 per cent.

With 18.5 per cent, Canada sold U. S. the greatest percentage of foreign goods, with British Malaya second with 10.3 per cent, and the Netherlands Indies third with 7.2 per cent. Brazil followed with 5.5 per cent and Cuba with 5.4 per cent.

MISCELLANY
The first B-29 Superfortress cost \$13,292,360.90. Current production models are costing \$10,000,000.

Into the cost of the first model of the B-29 Superfortress, \$13,292,360.90, current production models are costing \$10,000,000.

Through Middle America, both green and mature coconuts are an essential food providing an invaluable vegetable milk as well as a staple protein and oil.

JAMES R. HURD WRITES FROM ITALY

Italy.

Hello, Folks: I have been sometime since I last wrote you. Hope everyone is having much success in gathering your crops, although I realize you are short of labor, due to call of army service, for we are dependent upon you for our success.

Guess politics is very active back there now, due to the forthcoming election. We have very little time to study it, so we are depending on you to make the right decision, especially in our presidential campaign. We boys over here cannot understand why people would want to change presidents at a time like this. It seems to me that a change would be a setback on both fronts, home and war fronts. You know for yourself that anyone who spends time on the ground and build up No two persons in the world are too similar in thinking. So with the election build-up we have, let's all try to keep it so. How do we know what new president is? Do we know the background and future thoughts? Do we know that he is loyal to America in a time like this? The simple answer to this is NO! He might be a change better, but who knows? No one. He might be the best of men, but folks, let's not make a mistake which would backset everything we have done up to date. We must have this war won with our leadership and the tide rolling the same way. If you remember, the nation of France put the wrong man on the throne. So let's be sure when you make your decision in the forthcoming election.

Sincerely,

James R. Hurd.

We boys over here cannot understand why people would want to change presidents at a time like this. It seems to me that a change would be a setback on both fronts, home and war fronts. You know for yourself that anyone who spends time on the ground and build up No two persons in the world are too similar in thinking. So with the election build-up we have, let's all try to keep it so. How do we know what new president is? Do we know the background and future thoughts? Do we know that he is loyal to America in a time like this? The simple answer to this is NO! He might be a change better, but who knows? No one. He might be the best of men, but folks, let's not make a mistake which would backset everything we have done up to date. We must have this war won with our leadership and the tide rolling the same way. If you remember, the nation of France put the wrong man on the throne. So let's be sure when you make your decision in the forthcoming election.

Sincerely,

James R. Hurd.
